# Appropriate Body Services for schools

If your school employs a newly-qualified teacher or Early Career Teacher (ECT), you must register them with an Appropriate Body.

The Appropriate Body will provide independent quality assurance of the ECT's two-year induction, and this will include checking that the ECT is receiving a programme of support and training based on the Early Career Framework.

Why you should choose Vantage Teaching School Hub for your Appropriate Body:

- A highly efficient on-boarding process for schools, handled by us
- A bespoke service delivered by experienced and practising school leaders
- We are an ITT provider with knowledge of the Early Career Teacher journey
- On-demand support and guidance from experienced AB practitioners
- Access to our online AB platform to ensure time efficient submission of assessment/review information
- A fixed cost with no hidden extras for schools accessing our ECF Full Induction Programme
- 

**The fee for our AB service is £105 per term.**

---

**Please register your ECT with the Appropriate Body service here:**
