Students have two units left to complete, Unit 5 and their Unit 2 exam. Unit 5 is an internally marked and internally verified unit. Whereas, their exam unit is internally marked but externally moderated.

We are currently working on Unit 5 which is **handed in on the 11<sup>th</sup> December 2020.**

Students will then be awarded an initial grade, along with summative feedback and they will be given a resubmission of 15 days, 3 weeks to improve their grade. Once they have resubmitted their grade, this will be a final grade for this unit.

For their exam unit students are given an externally set paper. Students will **NOT** get a resubmission for their exam unit. Their exam paper will be handed out after Christmas. Students will prepare for this exam but completing a board of work. This will lead up to an exam which is **10 hours long, in exam conditions.** Students will create a final outcome and evaluate within this exam.

Please contact your child's class teacher if you have any concerns or queries.
