

Life Skills Year 2: Year 10 students

The Life Skills course, which runs over two years, concentrates on individual challenges in Year 9 centred around specific topics such as: Sport & Leisure, International Links and Health and Wellbeing. Each task completed counts towards their Award and together creates a Portfolio of work which is then externally moderated. This section of the portfolio is now complete.

Year 10 focuses more on longer, project style tasks covering skills for later life. These are: Oral Presentation skills; Discussion skills; Working with Others in a team; Improving your own Learning and Performance; Research skills and Problem solving.

Tasks that have already been completed are the Discussion and Improving own Learning and Performance. The students have undertaken a First Aid course to Improve their own Learning and Performance. Every student showed great commitment in completing this vital skill which was truly impressive. We are currently working on a Christmas themed magazine for our Working with Others Key skill. Students will work as a team to decide the article content of the magazine, decide on a layout and edit it as a team.

This course will be completed by the end of Year 10.
