Re: Year 10 Work Experience

Dear Parent/Carer,

Annually we offer Year 10 students the opportunity to spend a week completing a work experience placement. We place huge value on this as part of our KS4 curriculum, and the maturity students gain through the process is crucial. The key part of the progress is to enable and support students to investigate potential career opportunities. Whilst we are unable to offer our usual work experience provision this year, we are delighted to confirm plans for our virtual work experience offer.

Students will not be required to attend site Tuesday 13th, Wednesday 14th and Thursday 15th July. During these days students will be able to log onto a prearranged program of study via various resources and website links which cover a variety of career paths. Details of how to access this program of study will be released to parents in the coming weeks and all students will have tutorials on accessing the websites during this same period.

Any students unable to access these at home will have the opportunity to access these through onsite ICT facilities. Early next week you will receive a link to an online form so we can survey this requirement.

We are pleased to be able to offer this crucial virtual experience to Year 10 knowing the benefits in both accessing these opportunities and the independence it creates. Your support with both engaging with and supporting your child through these three days of virtual work experience is appreciated.

Kind regards,

G. Wild
